

Oral and Poster Presentation Schedule

DAY 1: 10 TH MARCH, 2023			
TIME	NAME	TOPIC	JUDGES
Podium Session A 9.45-10.45am	Dr.Abhinavya Egala JIPMER, Puducherry	Does the 3C (Counselling, Checking, Certification) initiative prevent hypoglycemia among at-risk newborns? – A Randomized Controlled Trial	Dr. Binu Ninan Dr. Lakshmi V Dr. S Manikumar
	Dr.Addlin Sarah CMC Vellore	Stories to take the edge off pain during Immunization for Preschoolers – A Randomized Controlled Trial	
	Dr.Sindhu Sivanandan Cloud Nine Hospital Chennai	Randomized trial of teleconsultation for neonatal follow-up during COVID pandemic	
	Dr.Pradhap K GCMCH, Chengalpet	Effect of short course Caffeine on Recurrence of Apnea of Prematurity in Preterm infants <32 weeks-A Randomized Controlled Trial	
	Dr.Archana A KKCTH, Chennai	Oral Domperidone versus Placebo for enhancing Exclusive Breast Feeding in Post Lower Segment Cesarean Section mothers – A Double Blind Randomised Controlled Trial	
Podium Session B 11.45-12.45pm	Dr.Vishnurajan Radhakrishnan SRIHER, Chennai	Immediate skin to skin care (SSC) zero separation of infant and mother dyad among healthy term infants delivered vaginally	Dr. Vishnu Bhat Dr. Sridhar S Dr. Shyamala J
	Dr.Vidya Varadarajan SRIHER, Chennai	Neurodevelopmental assessment using ages & stages questionnaires-3 at 24-30 months of age for babies born to covid positive and covid negative mothers-a single centre observational study	
	Dr.Sandesh C S JIPMER, Puducherry	Postnatal growth failure (PGF) and adverse outcomes in very preterm infants—a comparison of two definitions of PGF	
	Dr.Aravind A JIPMER, Puducherry	Clinical profile of culture proven Elizabethkingia anophelis infection and associated risk factors in neonates born in a tertiary care NICU – A case control study and outbreak investigation	
	Dr.Ammu Mariam Anil JIPMER, Puducherry	Clinical profile and outcome of neonates with Elizabethkingia sepsis: A descriptive study from a tertiary care hospital, South India	
Podium Session C 2.15-3.15pm	Dr.Praachi Singh JIPMER, Puducherry	Survival and short-term outcomes of inborn neonates with congenital diaphragmatic hernia: a tertiary centre experience	Dr. Adhisivam B Dr. Swati M Dr. Shabeer MP
	Dr.Madhumitha Krishnamoorthy Apollo Children's Hospitals, Chennai	Assessment of feeding progression in preterm neonates less than 34 weeks in a tertiary care centre	
	Dr.Navya Arnepalli Chettinad Hospital and Research Institute Chennai	Normative values of skin pH and moisture content values in neonates born between 26-32 weeks of gestation till discharge	
	Dr.Pratyush Jain CMC, Vellore	Incidence of Early & Late onset Neonatal Sepsis and antibiotic susceptibility pattern of organisms causing sepsis in neonates admitted in tertiary care hospital in India	
	Dr.Merin Abraham CMC, Vellore	Outcome of newborn receiving first-line antibiotics for suspected early onset sepsis and the factors associated with adverse outcomes	

Podium Session D 4.30-5.30pm	Dr N Sadhana Vardhan Fernandez hospital Hyderabad	Gradual weaning from Continuous positive airway pressure to Room air versus weaning from Continuous positive airway pressure to High flow nasal cannula and to Room air to reduce duration of respiratory support in preterm infants: A Randomized control trial	Dr. Manoj VC Dr. Alimelu M Dr.Abiramalatha T
	Dr Rahul Bhakat IOG, Chennai	Effect of topical application of chlorhexidine for umbilical cord care in comparison with standard dry cord care practice on the risk of neonatal sepsis in a hospital setting : a randomized controlled trial	
	Dr.Archana A KKCTH, Chennai	Nasotragal length or Tochen for endotracheal tip trial (note trial)	
	Dr. Nisha P NLC India Ltd Hospital	Effect of short versus long period of tactile-kinesthetic stimulation on weight gain in very preterm neonates – a parallel arm randomized controlled trial	
	Dr.Mamta Patel SRIHER, Chennai	Effect of novel method of gravity aided cord blood transfusion vs standard care on hemoglobin at 48 hours of life in late preterm and term neonates delivered by cesarean section LSCS: a randomized non-inferiority control trial	
Podium Session E 5.30-6.30pm	Dr. Pradhap K GCMCH, Chengalpet	Loss to follow up among NICU graduates – An observational cross-sectional study	Dr. Siddarth Ramji Dr. Shafi Jan Dr. Thanigainathan S
	Dr.Praachi Singh JIPMER, Puducherry	Growth pattern of preterm neonates with fetal growth restriction: a prospective cohort study	
	Dr.Priyanka Gupta Fernandez hospital Hyderabad	Comparison of cardiac function among hemodynamically stable preterm (28 0/6-34 6/7 weeks) small for gestational age and appropriate for gestational age neonates during the first 72 hours of life: A Prospective Cohort Study	
	Dr.Sumayya Hafeez Fernandez Hospital, Hyderabad	To assess and compare Parent's health related quality of life HRQL scores at the time of NICU stay and at 3 months follow-up.	
	Dr Kadiyala Meena Chettinad hospital and research institute	Comparing the outcomes of delayed cord clamping and umbilical cord milking at birth in vigorous neonates ≥ 35 weeks born via caesarean section.	

DAY 1: 10TH MARCH, 2023

TIME	NAME	TOPIC	JUDGES
Poster Session –1 10.45-11.00am	Dr.Rohi Gurindapalli CMC, Vellore	Clinical outcome in neonates with Vein of Galen Malformation: A case series	Dr. Manoj V C Dr. Shafi Jan
	Dr.Chilaka Lilly Grace CMC, Vellore	Hearing Screening in VLBW babies in a South Indian tertiary hospital over a period of 1 year	
	Dr.Sindhu Sivanandan Cloud Nine Hospital Chennai	Kangaroo mother care for preterm or low birth weight infants: A systematic review and meta-analysis	Dr. Adhisivam B Dr. Sridhar S
	Dr.Sivakumar Karunakaran Sakthi Dr. Mehta's hospital Chennai	Risk Factors for Umbilical Vessel Catheter-Associated Thrombosis-Observational study at our Institution	
Poster Session - 2 3.15-3.30pm	Dr.Sumayya Hafeez Fernandez Hospital Hyderabad	Comparison of Biomedical Waste Generated in a Tertiary care Women and Newborn Hospital in South India- during, and After COVID-19 Pandemic	Dr. Lakshmi V Dr. Thanigainathan S
	Dr.Nilesh Sadhwani GMCH Aurangabad	Experience of functional echocardiography in NICU of tertiary care hospital	
	Dr.Sandesh C S JIPMER, Puducherry	Neonatal outcomes following maternal infection with SARS-CoV-2 infection: experience from a tertiary care centre in South India	Dr. Manikumar S Dr. Abiramalatha T
	Dr.Vahnita TSV SRIHER, Chennai	Clinical profile, outcomes and complications in extremely low birthweight neonates undergoing peritoneal dialysis in a tertiary neonatal care unit – a retrospective study	
	Dr.Jyoti Kandpal ICH, MMC, Chennai	Clinical profile of babies with meconium aspiration syndrome at a tertiary care centre	

Oral and Poster Presentation Schedule

DAY 2: 11 TH MARCH 2023			
TIME	NAME	TOPIC	JUDGES
Podium Session F 8.00-8.45am	Dr.Jathin P JIPMER, Puducherry	Neurodevelopmental outcome of preterm very low birth (VLBW) neonates at 18-24 months corrected age – Cohort study.	Dr. Chandrakumar N Dr. S Manikumar Dr. Abiramalatha T
	Dr.Manisha Mathew CMC, Vellore	Prospective observational study to assess the potential of an early onset sepsis (EOS) risk calculator to safely decrease antibiotic use in neonates at risk of sepsis.	
	Dr.Archana Rai ICH, MMC Chennai	Clinical Profile and Outcome of Infective Endocarditis among Neonates in a Tertiary Care Hospital: An Observational Descriptive Study	
	Dr.Himaja Rani Pasupula IOG, Chennai	TITLE -To assess association between small for gestational age and morbidity, mortality attributed to sepsis & NEC in hospitalized neonates- A Retrospective cohort study.	
Podium Session G 8.45-9.30am	Dr. Shanthi S Babu JMMC Thrissur	Improving kangaroo mother care duration in a tertiary care NICU– a quasi-experimental study	Dr. Binu Ninan Dr. Kamalarathnam CN Dr. Tejo Pratap O
	Dr.Zubair Ahmad Bhat KIMS Trivandrum	“The highs and the lows!” Mother’s own milk and postnatal CMV infection in very preterm infants: A prospective cohort study	
	Dr. Sachin K G SRIHER Chennai	Analysis of risk factors associated with adverse neurodevelopmental outcome in premature infants with birth weight \leq 1500 grams and/ or gestational age \leq 32 weeks at 12 to 18 months of corrected age (CA)	
	Dr. Insy Kollannur JMMC Thrissur	Improving care giver comprehension of discharge instructions	
Podium Session H 4.00-4.45pm	Dr. Ashara T CMC, Vellore	Effectiveness of a Maternal Educational Behavioural Intervention on Breastfeeding efficacy and performance in very preterm infants.	Dr. Prakash A Dr. Mangala Bharathi S Dr. Umamaheshwari B
	Dr.Preethi Chandrasekar KMCH Coimbatore	Utility of saturation trends to predict successful weaning of nasal CPAP in very preterm neonates – A prospective observational diagnostic test accuracy evaluation study	
	Dr. Maria Joseph KKCTH Chennai	Incidence of second episode of sepsis in preterm neonates with suspect sepsis following administration of probiotics- a prospective observational cohort study (soap study)	
	Dr. Sutharson Ramasamy CMC Vellore	A retrospective study of severe meconium aspiration syndrome over 15 years in a tertiary care centre in south India	

DAY 2: 11TH MARCH 2023

TIME	NAME	TOPIC	JUDGES
Poster Session 3 10.30-10.45am	Dr. Mounika B ICH, MMC, Chennai	Neonatal airway anomalies: a 12 year experience of a tertiary care centre	Dr. Nivedita M Dr. Tejo Pratap O
	Dr. Vivek S ICH, MMC, Chennai	Neonates with Leaky kidneys: A Case-series	
	Dr. Revati Deglurkar JIPMER, Puducherry	Neonatal scrub typhus: Case series and review of literature	Dr. Kamalarathnam CN Dr. Mangala Bharathi S
	Dr. Selvendran Chelladurai SRIHER, Chennai	Role of routine torch screening and urine CMV PCR in term and preterm neonates with fetal growth restriction – a single centre cohort analysis	
Poster Session 4 3.45-4.00pm	Dr. Sachin K G SRIHER, Chennai	Risk factors associated with adverse neurodevelopmental outcome in very preterm infants at 12 to 18 months of corrected age (CA) – An observational study from a tertiary care center	Dr. Shyamala J Dr. Chandrakumar N
	Dr. Shruthi Parthasarthy KKA SRIHER, Chennai	Comparative study of weight loss percentage among low risk term neonates delivered before and after practice of delayed cord clamping- single centered retrospective observational study	
	Dr. Revati Deglurkar JIPMER, Puducherry	Hyperinsulinism in neonates admitted to tertiary care NICU with hypoglycemia	Dr. Prakash A Dr. Umamaheshwari B
	Dr. Hariharan CMC Vellore	Clinical profile and short-term outcome of neonates with necrotising enterocolitis – 10 years' experience from a tertiary center
